Sanborn 3D Stacking Plans

Sanborn 3D Interactive Stacking Plans are customized property information maps, quickly created from your floorplan pdf’s, property photos, and tenant information.

Sanborn Delivers Fully Interactive 3D Stacking Plans and building models on demand. Affordable, fast and cutting edge, users can explore your buildings, floorplans and tenant maps from every angle.

Viewers can click on any space for detailed building, lease and other information. This turnkey service comes with easy to use web, mobile, and iPad viewers, and can be hosted as a link, sent to clients via email or seamlessly integrated into your site.

With easy to use web and mobile viewers, Sanborn brings a new dimension to how people view, manage and explore properties.

Sanborn 3D Stacking Plans, continued

Functionality
The web-based 3D Stacking Plans Viewer suite of tools allows users to rotate, zoom, and adjust the opacity of the structure’s exterior walls, enabling easy visual analysis of every floor and space. Building information fields can be customized to display information specific to each floor, occupant, office, etc. In addition, the interactive floorplan model can be color-coded by any number of customizable client-defined classes or categories.

For more information about Sanborn 3D Building Stacking Plans, contact us by email at: information@sanborn.com and a Sanborn representative will be in touch.
